

TERMS OF REFERENCE

for

VITAL EVENTS REGISTRATION BOOK DIGITIZATION in Bogatan Phudsil Rural Municipality (Scanning and Entry)

PROCUREMENT OF NON-CONSULTING SERVICES

Contract: NP-DoCR-183656 -NC-RFB			
Project	SSSPCR - Strengthening Systems for Social Protection and Civil Registration Project		
Expertise/Position: Procurement of Non-Consulting Services			
Source	National	Category	Non-Consulting Services
1. Background:			
<p>STRENGTHENING SYSTEMS FOR SOCIAL PROTECTION AND CIVIL REGISTRATION (SSSPCR) is a national project implemented by the Department of National ID and Civil Registration (DoNIDCR) under the Ministry of Home Affairs and supported by the World Bank. The project supports the DONICR's Civil Registration (CR) and the Social Security Allowance (SSA) program and aims to improve the coverage of SSA and CR, and the delivery of SSA. Over a five-year period, the project is expected to support: (a) the establishment of a comprehensive National Population Register and expanded coverage of CR and SSA; and, (b) improved delivery of SSA via transition to e-payments in selected districts and improved overall business process for SSA service delivery. These will be supplemented by institutional strengthening at both central and local levels to ensure sustainability of the gains of the first two objectives.</p>			
<p>The Bogatan Phudsil Rural Municipality is the agency charged with the responsibility of managing CR and administering the SSAs in Doti local level. Nepal's CR system started operating in the late 1970s and captures five vital events birth, death, marriage, divorce, and migration. Besides its linkages to the SSA program, the CR system would also be a foundation for people's legal identities and their access to a range of public and private services. However, Nepal's CR system is under developed. The decentralized and paper-based recording of documents collected during registrations limits the potential usage of the information to generate vital statistics for planning and other purposes. Limited awareness among the population and difficulty in accessing local level offices have led to low registration rates and coverage. Transitioning to a digital CR system that is linked to a the SSA Beneficiary Register would facilitate improved coverage and delivery of both CR and SSA.</p>			
<p>The project would contribute to the Government's long-term plan to strengthen administrative capacities to manage its most fundamental service delivery responsibilities, CR and SSA. Improved delivery is an essential, if not sufficient, condition to strengthen the impact of Nepal's social programs in protecting the vulnerable from adverse risks and shocks. Furthermore, comprehensive and up-to-date CR would facilitate people's access to legal identity and public services beyond SP (for example, primary education).</p>			
Objective of Digitization:			
<p>The main purpose of this assignment is to establish a well-organized and modern digitized record and archive system architecture through the establishment of procedures and storage of existing vital events registration book in digital form that facilitates easy access and sharing of vital events registration book with in Local Registrar Office while taking into</p>			

account security, accessibility, safety considerations related to vital events registration record.

This task specific objectives are as below:

- To improve the vital events registration records accessibility, accuracy, re-usability and reduce the paper-based storage
- To improve retention of institutional memory and knowledge management.

2. Objective of the Assignment:

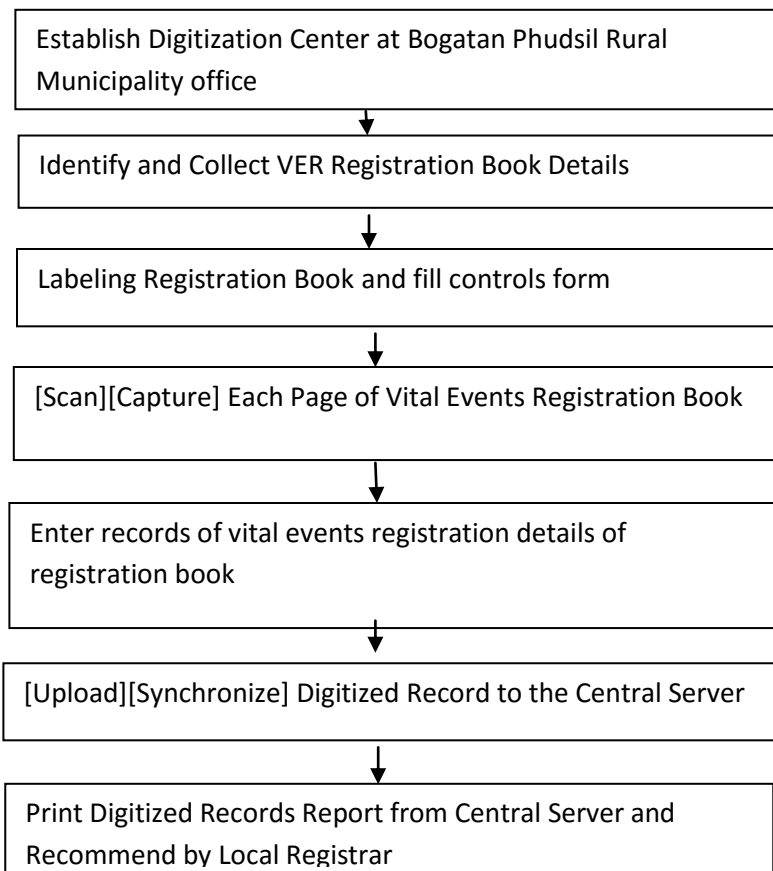

The objective of this assignment is to:

- Collect information of existing vital events registration records from ward offices of Bogatan Phudsil Rural Municipality,
- Capture Image of registration books,
- Entry of vital events records of Birth, Death, Marriage, Migration and Divorced registration accurately.

3. Scope of Work:

The main task of the firm is to digitize the VER records as per the data digitization application provided by DoNIDCR. The firm will also have to scan the document and ensure quality control in the process of data entry.

The work to be carried out the following process:

↓

Approved by Chief Administrative Officer of Rural
Municipality/Municipality

Methodology/Approach of the Service (Work)

While the vendor is to propose a detailed methodology and approach for the work, the following minimum standards are expected to be applied:
